

MYPro

Animal Feed Premix

Description

MYPro is a protein ingredients for animal use. It's made from plant protein concentrate with enzymatic hydrolysis process, in which we use several kinds of enzymes to degrade the protein under certain temperature, pH, reaction duration and evenness into small peptides. Unlike regular proteins, MYPro is "pre-digested", thus the digestibility has been improved; anti-nutritional factors, which may damage the gut of animals, has been removed to its maximum degree.

Composition:

Crude protein	55.0 %
Glycinin	1.0 mg/g
Trypsin inhibitor	0.8 mg/g
Sucrose	0.5 %
Total Amino acid	54.0 %
Fiber q. s. to	100 %

Benefit:

- Promote growth of animals
- Contribute to gut health of animals
- Supply protein nutrition for the growth of animals
- Improve growth speed, decrease FCR
- Enhance resistance to disease and stress

Dosage and administration:

20-80kg per ton feed

Self life: 12 months.

Packaging: 25 kg bag

Storage:

Store in a cool and dry place. Protect from light.
Keep out of the reach of children.

Manufactured by:

Mytech Biotech Co., Ltd.

Wusheng road, Jitian, Chengdu, P.R.

China
