

FORTIDE

Animal Feed Premix

Description

FORTIDE consists of nutrient peptides and is a high-quality raw material for the Feed industry. It is prepared from carefully selected cotton seed proteins and is processed by enzymatic hydrolysis into small peptides. It consists of dipeptides and tripeptides and tripeptides, also called small peptides. Dipeptides and tripeptides are absorbed more rapidly than amino acids, because their uptake involves a separate mechanism

Composition:

Items	Activities
Crude Protein	≥45 %
Crude Fat	02 %
Calcium	04 %
Fiber q. s. to	100 %

Benefit:

- ✓ Increase milk production and milk quality
- ✓ Improve body weight
- ✓ Improve rumen microorganism health
- ✓ Improve digestion and absorption of nutrients
- ✓ Decrease somatic cell count

Dosage and administration:

100 g /day/cow

(Whole lactating period)

Self life: 24 months.

Packaging: 25 kg bag

Storage:

Store in a cool and dry place. Protect from light.

Keep out of the reach of children.

Manufactured by:

Mytech Biotech Co., Ltd.
Wusheng road, Jitian, Chengdu, P.R.
China
